October 29th, 2021 (Los Angeles, CA) – *HUSHED AND GRIM*, the ninth full-length studio album from GRAMMY® award-winning heavy rock legends [Mastodon](#) is available now via Reprise Records at all digital retailers and in vinyl and physical configurations [here](#). This is the first double album from the internationally acclaimed quartet and first new record since 2017’s *Emperor of Sand*, which garnered the **“Best Metal Performance”** and their first win for the five-time GRAMMY® nominees and topped the *Billboard* Top Album Sales and Hard Rock Charts, and hit #7 on the *Billboard* 200.

To celebrate ***HUSHED AND GRIM***, Mastodon will perform live on **Late Night with Seth Meyers** on November 23rd. Tune into NBC stations at 12:35AM ET/PT. Click [here](#) for broadcast details.

HUSHED AND GRIM was recorded in their hometown of Atlanta over the past year and produced by **David Bottrill** (Tool, Rush, Muse, Peter Gabriel) Their most ambitious body of work to date, it consists of 15 disparate tracks, surveying a confluence of textures that include rock, psychedelia, punk, metal, alternative, and prog interwoven by their innately expressive musical interplay of these virtuosic musicians. An atmospheric canvas very real of loss, loneliness, and longing permeates through the trio of cathartic vocals as they musically say goodbye to old friend, confidant, and longtime manager the late **Nick John** by architecting a magnum opus that bears the influence of his eternal memory.

Opening up this world, the band shared a pair of expansive new tracks including the gnashing [“Pushing The Tides”](#) and the elegiac and haunting first official single from the album [“Teardrinker.”](#) **“Sickle and Peace,”** is the most recent track to be revealed from **HUSHED AND GRIM** and one that displays a very different side of the band. Click [here](#) to stream. This past week, **Troy Sanders** caught up with Apple Music’s Zane Lowe who premiered **“Sickle and Peace”** on his show for their New Music Daily spotlight. Click [here](#) to check out and share their conversation. **“Savage Lands”** from **HUSHED AND GRIM** is available now. Click [here](#) to stream and [here](#) to view and share the visual.

For as much as **HUSHED AND GRIM** is steeped in one of the darkest periods of the band’s career as each member experiencing personal grief, its light shines through in a fully realized manifestation everything **Mastodon** is right now.

Once again, **Mastodon** have drafted in revered artist [Paul Romano](#) (*Remission, Leviathan, Call of the Mastodon, Blood Mountain, Crack The Skye*) whose evocative images adorns the cover of **HUSHED AND GRIM**. The album artwork will also be featured on a new line of official **Mastodon** merch including various fan bundles and product combinations that are available in the bands store today. About Mastodon:

GRAMMY® Award-winning band **Mastodon** continue to chart their own course through their highly successful music career. Founded in Atlanta, GA during 2000 by **Troy Sanders** (bass/vocals), **Brent Hinds** (guitar/vocals), **Bill Kelliher** (guitar) and **Brann Dailor** (drums/vocals), the group have unleashed a series of influential albums. **Rolling Stone** notably cited 2004's *Leviathan* on its coveted *The 100 Greatest Metal Albums of All Time*. Meanwhile, *Crack The Skye* closed out 2009 on year-end lists by everyone from **TIME** to **SPIN**. They delivered three consecutive Top 10 debuts on the **Billboard Top 200** with *The Hunter* [2011], *Once More 'Round the Sun* [2014], and *Emperor of Sand* [2017]. "Sultan's Curse" notably garnered their first **GRAMMY® Award** in the category of **Best Metal Performance**. Mastodon have been nominated for **GRAMMY'S®** five times to date. Their presence has surged through ABC's *Jimmy Kimmel LIVE!*, NBC's *Late Night with Seth Meyers*, HBO's *Game of Thrones*, The History Channel's *Counting Cars*, AMC's *Ride with Norman Reedus*, and beyond. Not to mention, their music can be heard in PIXAR's *Monsters University* and *Bill & Ted Face The Music*, on the *Transformers: Dark of the Moon* Soundtrack, and they've partnered with **DC Comics** scoring the *Jonah Hex* 2010 soundtrack and more recently for *DARK NIGHTS: Death Metal Series* (**Brann Dailor's** 2018 solo track "[Red Death](#)" and with **Mastodon** for "[Forged By Nuron](#)" from the current album on Alta Loma Records). The group commemorated their late manager Nick John with their 2019 take on "Stairway To Heaven," affectionately entitled "[Stairway To Nick John](#)." Initially released for Record Store Day, all proceeds benefit the Hirschberg Foundation For Pancreatic Cancer Research. Their evolution continues with their ninth full-length offering for **Reprise Records** produced by **David Bottrill** [Tool, Rush], *HUSHED AND GRIM*. They've always been uncompromisingly true to themselves and their global audience.
