Joji, **Smithereens**

Japanese artist Joji has released his third album *Smithereens*, his first full-length project since 2020's *Nectar*. If Joji sounds familiar, it's because you might know — and love — his 2018 single “Slow Dancing in the Dark.” The R&B, lo-fi, alt-pop artist can't be put in a box, and his empowering versatility is on full display with *Smithereens*. Get a taste of the new project with “Die For You” above.
