[Bktherula](#) is back with her first new solo song since gracing [The FADER's GEN F profile series](#). "TAN" rides a beat equal part cyberpunk and SpaceGhostPurrp, with BK matching the distorted menace in her boisterous lyrics that stress her authority over everyone else in the room. The music video acts like Bktherula's own episode of *Cribs*, if she lived on a boat docked somewhere deep in a remote waterfront suburb. Watch above. BKtherula's new tap *LVL 5, PT. 1* drops February 17 via Warner.
