

**MOTHER MOTHER RELEASE NEW ALBUM *GRIEF CHAPTER*
LISTEN [HERE](#)**

**NEW ALBUM DROPS AS BAND KICKS OFF EUROPEAN TOUR, WITH
NORTH AMERICAN DATES STARTING THIS SUMMER**

(Download hi-res artwork [HERE](#))

February 16, 2024 (Los Angeles, CA) — Canada’s biggest alt-rock export, **Mother Mother**, have released their highly anticipated album ***Grief Chapter***. The album marks a new era in the group’s constantly evolving story, kickstarted by an organic groundswell of young, passionate fans who have all found community in the band’s songs. Sonically, ***Grief Chapter***’s twelve songs are some of **Mother Mother**’s most dynamic. Lead singer **Ryan Guldemond** says *"We've been playing the biggest stages of our career over the last few years, feeling more like a high energy rock band than we've ever felt. It's natural, I think, that this charged frequency found its way into the record. In the studio, our instinct was to make things hit hard and feel powerful, and the band as a whole felt very honed to execute in this way."* Listen to ***Grief Chapter*** [HERE](#).

With ***Grief Chapter***’s release, the group also shared a new video for **"Explode!"** — watch it [HERE](#). **Guldemond** says of the track *"This song is about the desire to live so fully that one becomes overzealous and manic about it. There's a fear-based element within striving so hard: fear of death, fear of time running out, and fear of not doing enough. Thus, we end up doing too much and, in turn, getting tired, losing our ability to be present, and ultimately never finding peace."*

Mother Mother will celebrate the release of ***Grief Chapter*** by kicking off the European leg of their 2024 world tour. These dates comprise an extensive 31-date tour of Europe that includes

stops in London, Paris, Madrid, Milan, Barcelona and more. The band then joins **Cavetown** for a massive North American co-headline tour this summer, with **Destroy Boys** supporting. The North American dates begin June 7 in Phoenix, and then take the band through boutique amphitheaters from coast-to-coast, hitting famed venues like Red Rocks in Colorado, with stops at Toronto's Bud Stage, Vancouver's Rogers Arena, along with American shows in Los Angeles, Seattle, Boston, New York, Chicago, and more. More tour dates will be announced throughout the year, including stops in South America, Mexico and Australia.

Comprised of **Ryan Guldemon** (vocals, guitar), **Molly Guldemon** (vocals, keys), **Jasmin Parkin** (vocals, keys), **Ali Siadat** (drums) and **Mike Young** (bass), **Mother Mother** have seen truly remarkable growth over the past three years. 2022 catapulted **Mother Mother** into a new stratosphere of universal success following the release of their 8th studio album **INSIDE**. Making a major impact, **Mother Mother** have quietly become one of 21st century rock's brightest rising acts. Thus far, **Mother Mother** have tallied a staggering 6.9 billion global streams and 3.9 billion views across YouTube. Their 2021 album, **INSIDE**, piled up 300 million streams, and they regularly attract over 7.8 million monthly listeners on Spotify in addition to reaching an audience of nearly 9 million total followers.
