## **ABOUT PET SHOP BOYS:**

Having sold in excess of 50 million records, Pet Shop Boys are easily the most successful UK duo of all time. Since their first #1 single, “West End Girls,” they have forged a singular path. Such is the strength of their catalogue that in June 2020, *The Guardian* reported that “West End Girls” had been voted the greatest #1 single ever in the UK: “36 years on, their debut single still pulses with that beguiling ambiguity - perfect pop equilibrium that almost made Dusty Springfield crash her car the first time she heard it.”

BRIT Awards and Grammy nominations have been numerous, including in 2009 when Pet Shop Boys won the BRIT for Outstanding Contribution to Music; in 2000 Pet Shop Boys’ song-writing was rewarded with the Ivor Novello award for Outstanding Contribution to British Music - with over 70 hit singles spanning five decades, song-writing remains resolutely at the core of Pet Shop Boys’ continuing relevance and success.

Their last three albums, recorded with producer Stuart Price, coincided with extended bouts of touring which saw the group headline Glastonbury for the third time, as well as headlining other major music festivals across the world. The duo also toured the US in 2022 in the co-headlining *Unity* tour with New Order, which saw them selling out arenas including Madison Square Garden in New York and the Hollywood Bowl in LA. More dates for the *Dreamworld* tour have already been announced for 2024, including a headline slot at the Isle of Wight Festival this summer.
